

March 27, 2017

Wine and Spirits Distributors of Illinois has been notified that Phusion Projects has issued a voluntary recall of a limited number of their 16 oz. Signature Cocktails products because some may contain very small, thin pieces of plastic film that have peeled away from the can's liner. Their can manufacturer used the can liner at issue in Signature Cocktails for approximately three months in early 2016, and it no longer uses the liner in Signature Cocktails or any of Phusion's products.

The Signature Cocktails flavors subject to this voluntary recall are (1) Screwdriver; (2) Sex on the Beach; and (3) Long Island Iced Tea. No other Phusion products are affected by this voluntary cocktail.

Phusion Projects distributors have been notified of this voluntary recall and are in the process of picking up and quarantining the affected product.
